

Daily Learning Task 2

Year 3

Maths:

Do you know your 9 times table? Can you remember the 'finger' trick that I showed you? Impress your parents with it, make a short video to show others and, at the very least, practise the 9 X table with 'Daily Ten'!

<https://www.topmarks.co.uk/maths-games/daily10>

Choose Level 3, multiplication and select 9 to practise. If you are scoring full marks at 7 seconds, decrease your answer time to 5 or 3 seconds. Work in your **challenge zone!** Which is the **quickest speed that you can get 10/10?** Let me know!

Too easy?

Choose 'division' and practise related division facts.

English:

Today we will practise using **inverted commas** to punctuate **direct speech**. We have learned about this before but need to be experts before the end of Year 3!

Look in one of your books and find some dialogue (characters speaking to each other). What do you notice about the way it is set out? Can you write **3 important rules** for direct speech?

Now watch this short BBC Bitesize video to check if you had the main rules:

<https://www.bbc.co.uk/bitesize/clips/zvftsbk>

Did you remember the main rules?

Note: We use the term 'inverted commas' rather than 'speech marks'.

Complete 'Mark Wants Chicken' activity on Purple Mash to practise punctuating direct speech (it is set as a To do' for Year 3).

Our word of the day is:

RELINQUISH

- Look up the meaning in a dictionary.
- Use the word in your own sentence. Can you use alliteration and make it a tongue-twister sentence?
- Use a thesaurus to find a synonym for it.

Other:

Use '2animate' on Purple Mash to design your own storyboard pictures and run them together to make an animation.

You could **make up a simple story** or **retell one you already know**. I look forward to seeing your completed animations!

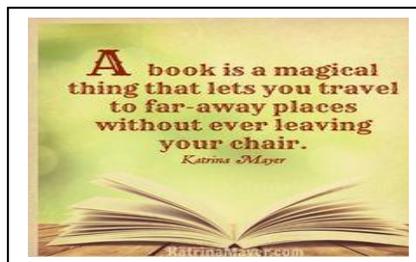

Use Purple mash to create your own animation!
